

New Annual Exemption Requirement

Please be aware that Colorado has changed the law regarding immunization exemptions. Beginning July 1, 2016, non-medical (personal and religious) immunization exemption forms will be required to be filled out every school year. If your student currently has an exemption on file with the school district, it will expire June 30, 2016, and a new one will need to be filled out after July 1, 2016.
